## BT Module

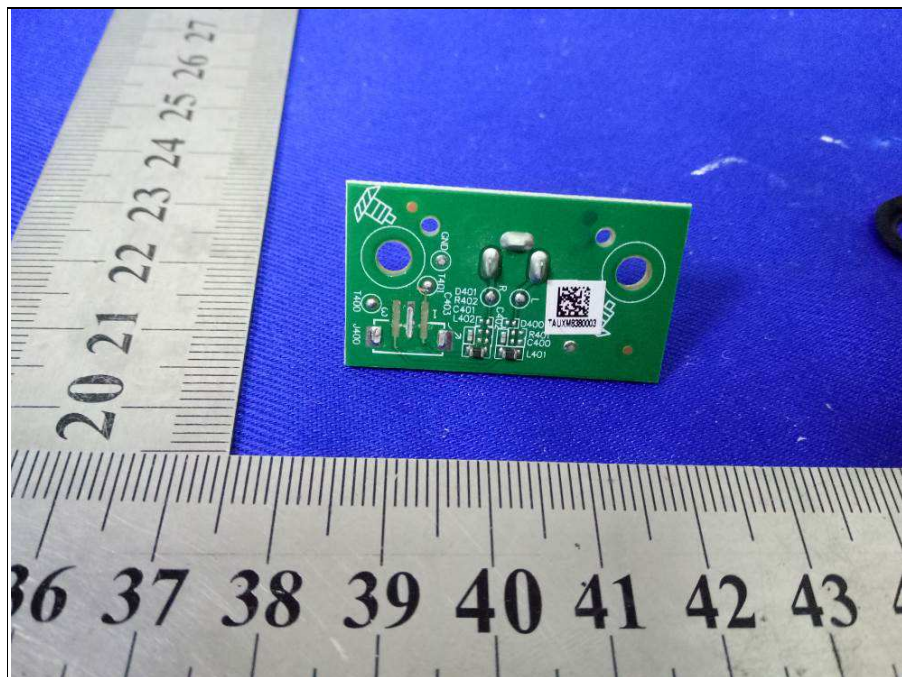

The image shows a small, rectangular, gold-colored electronic component, likely a microcontroller or sensor module, placed on a blue textured surface. The component has a central circular feature and two small circular features on either side. A ruler is visible on the left side of the image, showing measurements in centimeters.

Text on the component (read from left to right):

- 20 21 22 23 24 25 26
- 6 37 38 39 40 41 42 43 44 45 46
